

Welcome Letter

The Grand Ledge Public Schools Health Center is a school-based health center providing a range of physical, mental, and behavioral health services to children and young adults in Eaton County. The Grand Ledge Public Schools Health Center is not designed to replace an existing Primary Care Provider (PCP); the health center aims to complement PCPs and other medical providers by increasing access to healthcare and improving the overall well-being of youth in the Eaton County community. However, for patients who do not have a PCP, the provider at the health center can serve as their PCP. The health center is open year-round and is located within Grand Ledge High School.
